Update from District Councillor Jeremy Punchard 18/06/2026

As I am sure cllrs are aware NNDC has launched its call for sites and hope you as local representatives will be putting your own thoughts forward as well as those of the town.

Home | North Norfolk District Council launches 'Call for Sites' to support new Local Plan

Another busy month for me dealing with numerous planning concerns, not least the cashpoint application on Nationwide which myself and Cllr Vickers are hopeful a compromise can be found to have the much needed provision but be sympathetic of the conservation area.

The second main application I have raised concerns over is the care home application on holt road, whilst I would encourage any brownfield development I have concerns over number of provided parking spaces and potential impact to the already well used parking spaces on holt road, as you know access is partly a matter for NCC but NNDC do have some leverence over car parking spaces etc.

These issues aside the usual issues of housing, council tax concerns but positive whilst not in my ward to see the progress of the FLASH and the benefits this will bring to the town.
